Extended Abstract

This is a simple example of an "extended abstract". These documents should not exceed two pages. Please, do not use the

```
\begin{abstract}
...
\end{abstract}
```

environment. Instead, put your whole text in a single unnumbered section introduced with the following command:

```
\section*{Extended Abstract}
```

Inside this single section you can use usual LaTeX commands.

Acknowledgement: Here you should mention the names of grants which funded the work on this article. As defined by the particular grant.
